

CALL FOR ABSTRACTS

Thursday, April 7th, 2022

Brigham Young University, Provo, Utah
(online options likely available)

Abstract Submission Deadline: March 8th, 2022

General Registration Deadline: March 27th, 2022

Air Quality: Science for Solutions is holding a research conference emphasizing scientific progress in understanding the complicated and unique air quality issues that exist in Utah and the Intermountain West. This is the sixth in an annual conference series organized by Utah State University, Weber State University, the University of Utah, Brigham Young University, and the Utah Division of Air Quality.

Abstracts are now being accepted for oral and poster presentations. Oral presentations will be 15 minutes, followed by a five-minute question/answer period.

Go to airqualityscience.org to submit your abstract.

There will also be a student poster contest with prizes!

Topics may include, but are not limited to:

- Atmospheric chemistry and physics
- Health impacts
- Meteorology
- Emissions sources and inventories
- Atmospheric modeling
- Public policy
- Monitoring and measurements
- Indoor air quality
